

SACHINTHA SHYAMIKA

Software Engineer | Full-Stack Developer | UI/UX & Graphic Designer | IT Support

Colombo, Sri Lanka | +94 76 083 5913 | shamikakkss@gmail.com

Portfolio: shamikakkss.me | LinkedIn: linkedin.com/in/sachintha-shyamika | GitHub: github.com/Shamikakkss

PROFESSIONAL SUMMARY

Versatile IT professional (HNDIT — SLIATE) with a rare blend of full-stack software development, UI/UX & graphic design, and hands-on IT support experience. 3+ years building and deploying 6+ production and production-ready systems across serverless architectures (Firebase/Supabase), the MERN stack, PHP/MySQL, and Next.js — owning the complete lifecycle from database design to client-facing UI. Backed by 3+ years as a Fiverr Level 1 Seller delivering brand identity, UI/UX, and graphic design work for clients worldwide, plus 7+ years of hands-on experience maintaining and troubleshooting personal computers, giving strong practical IT support and problem-solving skills. Currently building foundations in cyber security and using AI-assisted workflows (Claude AI, ChatGPT, prompt engineering) to work faster and smarter. Comfortable moving between code, design, and technical support — equally at home shipping a feature, designing an interface, or fixing a system issue.

SOFTWARE ENGINEERING & FULL-STACK DEVELOPMENT

Languages: JavaScript (ES6+), TypeScript, PHP, SQL, C#, Java

Frontend: React.js, Next.js 16, HTML5, CSS3, Tailwind CSS v4, Responsive Design

Backend & Databases: Node.js, Express.js, Firebase/Firestore, Supabase, MongoDB Atlas, PostgreSQL (Neon), Prisma ORM, PHP/MySQL, REST APIs

Auth & Payments: JWT, OTP Authentication, Clerk Auth, Firebase Auth, RBAC, Bcrypt, PayHere Payment Gateway

Tools & DevOps: Git, GitHub, VS Code, Vercel, GitHub Pages, Docker (learning)

UI/UX & GRAPHIC DESIGN

Design & Prototyping: Figma (Wireframing, Prototyping), Adobe Illustrator, Adobe Photoshop, Canva

Specialties: Brand Identity, Logo Design, Social Media Design, Landing Page Design, Design Systems

Approach: User-centred design informed by full-stack development background — designs that are practical to build and ship

IT SUPPORT & SYSTEMS

Troubleshooting: Software issue diagnosis, OS-level troubleshooting, application errors, driver/hardware conflicts

Operating Systems & Hardware: Windows (Installation, Configuration, Recovery), basic Linux (Kali Linux), PC/Laptop setup & fault-finding

Networking & Security: Basic Networking (TCP/IP), Wi-Fi/router setup, Network Security Fundamentals, Ethical Hacking Basics

Office & Support Tools: MS Office Suite, Google Workspace, ticket handling, client communication, issue documentation

KEY PROJECTS

RuuGraphics — Creative Service & Order Management Platform

Flagship Final Year Project

- Built a full-stack serverless order-management platform using Firebase/Firestore, Supabase Storage, PayHere payment gateway, and EmailJS notifications.
- Implemented OTP authentication, role-based access control (RBAC), real-time chat, and an admin dashboard with earnings and financial analytics.
- Tech: JavaScript, Firebase, Cloud Firestore, Supabase, PayHere, REST APIs

Workmate.lk — Location-Based Skilled Worker Marketplace

Ongoing

- Building a PickMe/Uber-style marketplace connecting clients with local skilled workers using GPS live mapping and route calculation.
- Implementing multi-role authentication (Client, Worker, Employer, Admin) and a live status stepper.
- Tech: Next.js 16, React 19, TypeScript, Tailwind CSS v4, Prisma ORM, PostgreSQL (Neon), Clerk Auth, Leaflet Maps

EkamuthuERP — Community & Mutual Aid Management Platform

Ongoing

- Developing a MERN-stack ERP system for community fund and resource management with REST API-driven modules.
- Tech: React.js, Node.js, Express.js, MongoDB, REST APIs

Personal Portfolio — shamikakkss.me

- Designed and built a Supabase-powered personal portfolio with a dynamic image gallery, hero slideshow, and SEO-optimised structured data.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer & IT Support

2025 — Present

Freelance & Academic Projects, Remote (Sri Lanka)

- Designed and deployed responsive, SEO-optimised web applications with clean, performance-focused front-end code.
- Integrated OTP authentication, real-time chat, and third-party APIs (Firebase, Supabase, EmailJS, Binance API) into live projects.
- Provided end-to-end technical support to clients — resolving software issues, guiding installations, and troubleshooting app/website errors remotely.
- Worked across the full stack — database design, server logic, and client-ready UI — for real, deployed users.

Freelance Graphic & UI/UX Designer — Level 1 Seller, Fiverr

2023 — Present

Remote / Worldwide Clients

- Delivered logo design, brand identity, UI/UX, and social media design projects for clients worldwide.
- Managed client communication, revision cycles, and final delivery independently — translating briefs into polished, on-brand digital experiences.

EDUCATION & CERTIFICATIONS

HNDIT (Information Technology) — SLIATE, Dehiwala

Aug 2024 — Present

- Relevant Modules: Web Development, OOP (Java & C#), Databases, Networking, Software Engineering.

Diploma in Cyber Security — NextGen Campus

Apr 2026 — Present

- Relevant Modules: Network Security Fundamentals, Ethical Hacking Basics, Security Toolsets.

IT Essentials — Cisco Networking Academy

Certified

- Focus: IT Fundamentals, Hardware, Basic Networking & Network Security.

Web Design for Beginners — University of Moratuwa

Certified

- Focus: Web Design Fundamentals, HTML & CSS Basics.

G.C.E. Advanced Level — R/Balangoda A. M. Central College

2020 — 2023
