PROFESSIONAL SUMMARY

IT undergraduate (HNDIT — SLIATE) with 7+ years of hands-on, self-taught experience using and maintaining personal computers and laptops, giving me a strong practical ability to diagnose and fix common software issues, install and configure operating systems, and set up applications and networks. Pursuing a Diploma in Cyber Security alongside my degree, with additional exposure to Kali Linux and basic networking (TCP/IP). Combines this IT troubleshooting background with full-stack web development and 3+ years of freelance client-support experience (Fiverr Level 1 Seller), making me comfortable handling technical requests, end-user support, and documentation independently. Reliable, detail-oriented, and quick to pick up new tools and systems.

CORE IT SUPPORT SKILLS

Troubleshooting: Software issue diagnosis, OS-level troubleshooting, application errors, driver/hardware conflicts

Operating Systems: Windows (Installation, Configuration, Recovery), basic Linux (Kali Linux)

Hardware & Setup: PC/Laptop assembly & setup, peripheral configuration, basic hardware fault-finding

Networking: Basic Networking (TCP/IP), Wi-Fi/router setup, IP configuration, connectivity troubleshooting

Software & Office Tools: MS Office Suite, Google Workspace, software installation & licensing, printer/driver setup

Security Awareness: Ethical Hacking Basics, Security Toolsets, Network Security Fundamentals

Documentation & Support: Ticket handling, client communication, issue logging, remote support via AI-assisted troubleshooting (Claude AI, ChatGPT)

ADDITIONAL TECHNICAL SKILLS

Programming: JavaScript, PHP, SQL, HTML/CSS — used for internal tools, automation, and web-based systems

Databases & Platforms: Firebase, Supabase, MySQL — data handling for small business/admin systems

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Canva — for internal documentation, presentations, and visual materials

Dev & Version Control: Git, GitHub, VS Code — useful for managing IT documentation, scripts, and configuration files

PROFESSIONAL EXPERIENCE

Freelance IT Support & Web Developer

2023 — Present

Self-Employed (RuuGraphics), Remote (Sri Lanka)

- Provided end-to-end technical support to clients — resolving software issues, guiding installations, and troubleshooting website/application errors remotely.
- Set up, configured, and maintained personal computer and laptop systems over 7+ years, developing strong independent problem-solving skills for both hardware and software issues.
- Handled client communication, issue reporting, revision cycles, and delivery — similar to a helpdesk/ticket-resolution workflow.
- Managed backend systems (Firebase, Supabase) including data entry, configuration, and basic server-side maintenance.

Remote / Worldwide Clients

- Relevant Modules: Networking, Software Engineering, Databases, OOP (Java & C#), Web Development.

development.

- Diploma in Cyber Security — NextGen Campus Apr 2026 Present

- Relevant Modules: Network Security Fundamentals, Ethical Hacking Basics, Security Toolsets.

- T Essentials** **Cisco Networking Academy** *Certified*

- Focus: IT Fundamentals, Hardware, Basic Networking & Network Security.

200 100 0

- Web Design for Beginners University of Moratuwa Certified

- Focus: Web Design Fundamentals, HTML & CSS Basics.
