

SACHINTHA SHYAMIKA

Full-Stack Developer | UI/UX Designer | Software Engineering Undergraduate

Colombo, Sri Lanka | +94 76 083 5913 | shamikakkss@gmail.com

Portfolio: shamikakkss.me | LinkedIn: linkedin.com/in/sachintha-shyamika | GitHub: github.com/Shamikakkss

PROFESSIONAL SUMMARY

IT undergraduate (HNDIT) with hands-on experience in full-stack web development, software engineering, and UI/UX design, backed by three years of freelance design and client-delivery experience on Fiverr. Skilled in building complete web applications end-to-end — from database design and backend logic (PHP, MySQL, Firebase/Firestore, Supabase) to responsive, user-focused interfaces. Practical project experience with authentication systems, payment gateway integration, and real-time data workflows, gained through freelance and academic projects. A quick learner who picks up new tools, frameworks, and technologies fast and applies them directly to live projects. Seeking a Software Engineering / Full-Stack Development internship to contribute and grow within a professional team.

TECHNICAL SKILLS

- **Full-Stack Web Development:** HTML5, CSS3, JavaScript, PHP, MySQL, WordPress, Responsive Web Design
- **Backend, APIs & Integrations:** Firebase, Firestore, Supabase (Auth & Storage), REST APIs, PayHere Payment Gateway Integration, EmailJS, User Authentication & OTP Systems
- **MERN Stack (Learning):** MongoDB, Express.js, React, Node.js — actively building working knowledge
- **UI/UX & Graphic Design:** UI/UX Design, Wireframing & Prototyping, Brand Identity, Adobe Illustrator, Adobe Photoshop, Figma, Canva
- **Programming Languages:** C#, Java, JavaScript, SQL, Object-Oriented Programming
- **IT Support & Networking:** Basic Networking, Network Security Fundamentals, IT Essentials (Cisco Certified)
- **Developer Tools:** Git, GitHub, Visual Studio, Visual Studio Code, NetBeans
- **Core Strengths:** Quick learner — grasps new tools, frameworks, and concepts fast and applies them on live projects; strong client communication and independent project ownership

PROJECTS & PRACTICAL EXPERIENCE

Industry-style, full-stack projects built through academic coursework and independent development.

RuuGraphics — Freelance Creative Service Management System (Final Year Project)

2026 – Present

- Full-stack order management platform (client + admin) with real-time tracking via Firebase/Firestore, Supabase Storage, PayHere payment integration, EmailJS notifications, and OTP authentication.

RuuCrypto AI — Trading Signal Dashboard (Personal Project)

2026

- Full-stack dashboard computing technical indicators (EMA, RSI, MACD, Bollinger Bands) from live Binance API data, with a backtesting engine.

Fund Management System — HNDIT Group Project

2025 – 2026

- PHP/MySQL web app with login authentication, transaction records, and report generation, built as part of a team following SDLC methodology.

Portfolio & RuuGraphics Design Websites (Personal Projects)

2025

- Fully responsive personal portfolio and design-showcase websites (HTML, CSS, JavaScript, Supabase), applying UI/UX and visual design principles.

Library Management System (C#) & Student Management System (PHP/MySQL) — University Projects

2025

- C# desktop app for managing books/members/borrow-return records, and a PHP/MySQL CRUD web app for student records.

EXPERIENCE

Freelance Graphic Designer — Level 1 Seller, Fiverr.com

2023 – Present

Self-Employed / Remote

- Delivered logo design, brand identity, and UI/UX-focused visual design projects for clients worldwide, reaching Level 1 Seller status through consistent quality and on-time delivery.
- Independently managed client communication, revisions, and file delivery — building strong client-facing communication and project ownership skills.

EDUCATION & CERTIFICATIONS

Higher National Diploma in Information Technology (HNDIT) — SLIATE, Dehiwala

2024 – Present

- Relevant Modules: Web Development, OOP (Java & C#), Database Management, Software Engineering, Networking.

Diploma in Cyber Security — NextGen Campus

Apr 2026 – Present

- Relevant Modules: Network Security Fundamentals, Ethical Hacking Basics, Security Toolsets.

Cisco Certified IT Essentials — Cisco Networking Academy

Certified

- Focus: IT Fundamentals, Hardware, Basic Networking & Network Security.

Web Designing for Beginners — University of Moratuwa

Certified

- Focus: Web Design Fundamentals, HTML & CSS Basics.

G.C.E. Advanced Level — R/Balangoda Ananda Maithreya Central College

2020 – 2023

ADDITIONAL INFORMATION

- Special Skill: Fast learner** — able to learn new technologies, frameworks, and tools quickly and apply them effectively on live projects.
- Comfortable working with AI technologies and AI-assisted tools** (Claude AI, ChatGPT) for coding, design, and prompt engineering.
- Languages:** Sinhala (Native), English (Conversational — proficient in reading and writing).
- Soft Skills:** Client Communication, Time Management, Team Collaboration, Problem Solving, Creative Thinking.
