ABOUT ME

I am an IT student in Sri Lanka who enjoys building software and solving problems. I have been doing freelance graphic design on Fiverr since 2023, which taught me how to work with real clients and deliver good results on time. Now I am focused on web development and software projects. I have built several web applications using HTML, CSS, JavaScript, PHP, and MySQL. I also have experience with C# and Java from university assignments. Currently I am working on an order management system as my final year project and learning cyber security. I am looking for an internship where I can learn, contribute, and grow as a developer.

TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, PHP, MySQL

Programming: C#, Java, SQL

Design Tools: Visual Studio Code, WordPress Web Design, Visual Studio, NetBeans, Adobe Illustrator, Adobe Photoshop, Canva, Figma

Other: Git, GitHub, Responsive Design, Basic Networking, Cyber Security (ongoing)
