PROFESSIONAL SUMMARY

IT Support professional with enterprise hands-on experience at Allianz Head Office in end-user support, Active Directory administration, software installations, and system troubleshooting. Backed by a strong academic record in IT (HNDIT, SLIATE, 3.70 GPA) and ongoing Cyber Security studies, with proven client communication skills from 5.0-rated freelance work. Combines structured incident handling with the ability to explain technical issues clearly to non-technical users.

TECHNICAL SKILLS

Directory Services & User Management: Active Directory (AD), User Provisioning, Password Resets, Access Controls & Permissions (RBAC), Group Policies (GPO)

IT Support & Systems Troubleshooting: Windows 10/11 Installation, Configuration & Recovery, Hardware Diagnostics & Repair, Driver & Peripheral Setup, Enterprise Software Rollouts

Helpdesk & Operations: Incident Management, Service Desk Operations, Remote Technical Support, Technical Documentation & SOPs, Ticket Resolution

Networking & Security: TCP/IP Fundamentals, Wi-Fi & Router Configuration, Network Printer Setup, Cybersecurity Fundamentals

Technical Background & Tools: C#, PHP, MySQL, JavaScript, MS Office Suite, Google Workspace, AI Productivity Tools (Claude, ChatGPT)

PROFESSIONAL EXPERIENCE

Trainee IT Technician / IT Support Present

Allianz Head Office, Sri Lanka

- Deliver enterprise-level technical support across head office departments, diagnosing and resolving hardware, operating system, and application issues for end-users.
- Manage user lifecycle operations in Active Directory, including credential resets, role-based access control (RBAC), and directory permissions.
- Install, configure, and recover software on corporate laptops and desktops in line with IT governance guidelines.
- Troubleshoot LAN/Wi-Fi connectivity, set up network printers and peripheral devices.
- Log, track, and escalate technical issues, maintaining high user satisfaction and meeting internal service-level expectations.

Junior Web Systems Developer (Project-Based) 2024 — Present

Freelance & Academic Projects, Sri Lanka

- Built and maintained 10+ web systems end-to-end, including RuuGraphics (order management platform with Firebase, Supabase, and PayHere payments), EkamuthuERP (MERN-stack ERP), and PHP/MySQL Fund and Student Management systems.
- Implemented authentication and access control (OTP, RBAC, JWT), building practical knowledge of user permissions and system security relevant to IT access management.
- Debugged issues across UI, API, and database layers to restore system functionality quickly, and documented systems for handover and maintenance.

Freelance Service Provider & Digital Specialist 2023 — Present

Fiverr (Level 1 Seller)

- Maintained a 5.0-star rating across 109+ global client reviews, managing requirements, timelines, and quality delivery.
- Applied request-intake and client communication practices directly transferable to service-desk ticketing workflows.
